

2011 Pros to Know List Includes Three Integration Point Leaders

Charlotte, NC, February 18, 2011 – *Supply & Demand Chain Executive* magazine recently announced the 11th annual listing of Pros to Know in the supply chain industry. Integration Point is pleased to announce that three leaders within the company were recognized for helping Integration Point customers achieve their global trade objectives.

The three Integration Point leaders - Ned Chamberlain, Jill Natusch, and Liz Connell — have over 40 years of combined experience in the industry. Mr. Chamberlain is the Vice President of Solutions Delivery at Integration Point, and was chosen due to his expertise in the implementation of web-based solutions to optimize cross-border operations. Ms. Natusch is the Vice President of Client Services at Integration Point, and was recognized for her extensive work over the last 20 years in helping multi-national companies manage connectivity across the supply chain. Ms. Connell is the Director of Product Development for Integration Point FTZ Management, and was selected based on her experience as a compliance automation practitioner and her unique perspective that Integration Point customers appreciate when implementing and running a US Foreign-Trade Zone.

“Our annual list of Provider Pros to Know highlights the many thought-leaders who are helping to shape the supply chain industry and advance supply chain as a respected discipline in the enterprise,” said Barry Hochfelder, editor of *Supply & Demand Chain Executive*. “Their efforts in developing the tools, processes and knowledge base necessary for supply chain transformation, and in promoting new approaches to supply chain enablement, have earned them a place on this year’s Provider Pros listing.”

“We are very happy to continue seeing different team members considered Pros to Know by their industry peers. Participation with the thought leaders in the industry helps ensure that our solutions continue to meet our client needs globally.” said Tom Barnes, CEO of Integration Point.
