

Integration Point Chosen by Inbound Logistics for Excellence in Providing Innovative and Practical Global Trade Management & Compliance Solutions

Charlotte, NC, May 7, 2009 – [Integration Point Inc.](#), a provider of global trade compliance software, has been selected out of a group of 300+ companies, for the second year in a row, as one of the Top 100 Logistics IT Providers by Inbound Logistics. The award is granted to those organizations who strive for excellence through their offering of innovative technology and practical solutions.

Each year, the editors of Inbound Logistics compile the top-tier IT providers through a comprehensive process of evaluating questionnaires and conducting research on over 300 diverse organizations. The chosen awards portray the needs of Inbound Logistics' readers and the companies that strive to meet those requirements. All selected companies reflect leadership by satisfying Inbound Logistics readers' needs for simplicity, ROI, proficient implementation and ceaseless solutions.

This award is in recognition of the continued success of Integration Point in offering innovative and practical solutions for global trade compliance to assist organizations with staying compliant during the rapidly changing global economy. Integration Point consistently provides flexible and responsive technology to anticipate customers' ever evolving needs and facilitate the management of increasingly complex supply chains.

"We are honored to be named a top IT Provider by Inbound Logistics again this year" said Tom Barnes, CEO of Integration Point. "We take pride in assisting our clients with the management of global regulatory compliance and visibility necessary to optimize their supply chain."

About Inbound Logistics

Inbound Logistics is the pioneering publication of demand-driven logistics practices, also known as supply chain management. IL's educational mission is to guide businesses to efficiently manage logistics, reduce and speed inventory, and neutralize transportation cost increases by aligning supply to demand and adjusting enterprise functions to support that paradigm shift. More information about demand-driven logistics practices is available at www.inboundlogistics.com
