

Integration Point Chosen by National Publication for Leading the Way as a Logistics IT Provider in 2010

Charlotte, NC, May 11, 2010 -- [Integration Point®, Inc.](#), a provider of global trade compliance and management solutions, has been recognized, for the third year in a row, as one of the Top 100 Logistics IT Providers by *Inbound Logistics* – a national publication that covers demand-driven logistics practices such as [supply chain management](#). Organizations were granted this award for their innovative solutions empowering logistics and supply chain excellence.

This year, Inbound Logistics editors drew from a pool of more than 300 companies using questionnaires, personal interviews, and other research to select the Top 100 Logistics IT Providers who are leading the way in 2010. All companies selected reflect leadership by satisfying Inbound Logistics readers' needs for simplicity, ROI, and efficient implementation.

According to Felecia Stratton, Editor of Inbound Logistics, "Top 100 Logistics IT Providers such as Integration Point empower supply chain management and logistics, and continue to offer innovative and practical solutions in the face of economic uncertainty. As shippers, carriers, and 3PLs increase their use of logistics IT, Integration Point continues to be flexible and responsive, anticipating customers' evolving needs. Inbound Logistics is proud to honor Integration Point for innovative solutions empowering logistics and supply chain excellence."

"In this rapidly changing global economy, companies need the right information at the right time in order to best execute on their strategy," said Tom Barnes, CEO of Integration Point, Inc.

"Integration Point strives to consistently evolve our solutions in order to best equip our clients with the tools necessary to compete in the Global marketplace. We are honored to receive this award".

About Inbound Logistics

Inbound Logistics is the pioneering publication of demand-driven logistics practices, also known as supply chain management. IL's educational mission is to guide businesses to efficiently manage logistics, reduce and speed inventory, and neutralize transportation cost increases by aligning supply to demand and adjusting enterprise functions to support that paradigm shift. More information about demand-driven logistics practices is available at www.inboundlogistics.com
