

INTEGRATION POINT AWARDED 2008 TOP 100 LOGISTICS IT PROVIDER BY INBOUND LOGISTICS

Charlotte, NC, April 28, 2008 -- [Integration Point](#)®, a provider of real time global trade management solutions, has been recognized as one of the Top 100 logistics IT providers by [Inbound Logistics](#).

Every April, Inbound Logistics editors recognize 100 logistics IT companies that support and enable logistics excellence. Selecting the annual Top 100 Logistics IT providers is no small task, given the pace of change and the number of new entrants in the logistics technology market. Inbound Logistics editors whittled this year's list from more than 300 companies through a comprehensive process of evaluating questionnaires, conducting research, and soliciting reader feedback. The goal is to provide a balanced and accurate assessment of our readers' needs and the logistics IT companies we believe are best suited to meet their specific requirements. All companies selected reflect leadership by answering Inbound Logistics readers' need for simplicity, ROI, and efficient implementation.

Felecia Stratton, Editor, Inbound Logistics noted, "Solutions providers such as Integration Point empower logistics and supply chain management, continuing to offer innovative and practical solutions in the face of fast-changing challenges. During 2008, Integration Point consistently provided the kinds of technology solutions Inbound Logistics readers need to successfully manage their global enterprises. As shippers, carriers, and 3PLs increase their use of logistics IT, Integration Point continues to be flexible and responsive, anticipating customers' evolving needs. That's why Inbound Logistics editors have recognized Integration Point as one of 2008's Top 100 Logistics IT providers."

About Inbound Logistics

Inbound Logistics is the pioneering publication of demand-driven logistics practices, also known as supply chain management. IL's educational mission is to help businesses efficiently manage logistics, reduce and speed inventory, and neutralize transportation cost increases by aligning their supply to demand and adjusting enterprise functions to support that paradigm shift. More information about demand-driven logistics practices is available at www.inboundlogistics.com

About Integration Point, Inc.
