

Corporate Announcement:  
May 1, 2011

## ***Integration Point acquires the Global Trade Division assets of TAKE Solutions***

Integration Point acquired the Global Trade Division of TAKE Solutions effective May 1, 2011. This includes the PSI Software assets acquired by TAKE in 2009 which encompass, but are not limited to, the following applications well recognized and with a large install base in North America, CAM (Maquiladora / IMMEX software), and NAFTAAssistant.

Since 1979, PSI Software has provided leading organizations with international trade software applications to ensure proper compliance.

The acquisition will grow the Integration Point client base by hundreds of companies across North and Central America. These clients will now be able to expand their capabilities beyond their current usage by leveraging the Integration Point Global Trade Platform. The combination of existing Integration Point clients and those gained through the acquisition clearly solidify Integration Point's leadership position in the Free Trade Agreement and Mexican Trade (Maquiladora / IMMEX) realm.

With this acquisition, Integration Point will add two new office locations - one in El Paso, Texas, USA and one in Reynosa, Tamaulipas, Mexico.

### **Frequent Asked Questions:**

#### **Why did Integration Point make this acquisition?**

To help fuel our growth by inheriting a very knowledgeable team in the trade compliance space and by acquiring hundreds of customers who can benefit from other capabilities available on the Integration Point Global Trade Platform.

#### **Integration Point has an IMMEX and FTA product. Which will be used going forward?**

The Integration Point platform products will continue to be the products sold by Integration Point.

#### **What is going to happen to the PSI Software offices in El Paso and Reynosa?**

Both offices will remain open and fully staffed.

#### **What is going to happen to PSI CAM / NAFTA products?**

Integration Point will continue to support those customers using PSI CAM and PSI NAFTAAssistant software.

**Do you have plans to continue support for the PSI products for law changes?**

Yes, the PSI products will be supported and enhanced.

**Who is going to provide support (help desk) for existing PSI Software products?**

The level of support you receive will not be affected by this acquisition. The people with whom you are familiar will continue to provide support to you.

**Will Integration Point provide a migration path for PSI clients that want to move to the Integration Point web-based platform?**

Yes

**Will Integration Point provide integration between current PSI products and other Integration Point products?**

Yes
