

HOW SECURE IS YOUR SUPPLY CHAIN?

Companies that meet minimum supply chain security criteria in these various programs may be known as “Trusted Traders.”

WHAT IS A TRUSTED TRADER PROGRAM?

Trusted Trader programs (such as PIP, C-TPAT, AEO, NEEC, etc.) are internationally recognized and align with standards set forth in the World Customs Organization (WCO) SAFE Framework, focusing on supply chain security.

WHAT ARE THE KEY BENEFITS?

	NEEC	AEO	C-TPAT	PIP
Reduction in Customs inspections	✓	✓	✓	✓
Expedited cargo releases	✓	✓	✓	✓
Reduction in transit time	✓	✓	✓	✓
Priority processing for inspections that are required	✓	✓	✓	✓
Recognition as a safe and secure business	✓	✓	✓	✓
Improving security levels within the organization’s global supply chains	✓	✓	✓	✓

WHERE DO I BEGIN?

HOW CAN I MANAGE MULTIPLE TRUSTED TRADER PROGRAMS?

Integration Point Supply Chain Compliance Solution assists companies with assembling necessary information in order to obtain and maintain certification in Trusted Trader programs (C-TPAT, PIP, AEO, NEEC, etc.).

When using Integration Point Supply Chain Compliance Software to manage supply chain risk assessments, companies are able to identify vulnerability gaps and issue corrective actions to mitigate or eliminate them, strengthening their overall global supply chain operations.
