## GLOBAL TRADE MANAGEMENT & COMPLIANCE

Economies change. Governments enact new regulations. Trade channels are disrupted. Supply chain partners alter services or products. Regardless of the country or year, global trade is always in a state of flux. For companies looking to manage global trade initiatives in a flexible, up-to-date and on-demand environment, Integration Point is the answer. Integration Point is a leading provider of global trade management and compliance solutions for organizations around the globe. The ability to provide current regulatory knowledge for over 140 countries, coupled with an extensive network to connect you with your supply chain partners, provides Integration Point customers with a single solution to meet every trade compliance need.

The integration of compliance, global trade content, and connectivity is the essence of Integration Point, Inc. Since the beginning, Integration Point set expectations that a global trade compliance solution providing global regulatory content, compliance and connectivity would become the industry standard. Integration Point combines extensive industry knowledge with software expertise to provide companies the most accurate, up-to-date and accessible trade compliance solutions.

### THE INTEGRATION POINT FACTOR

As Integration Point continues to push the bar higher and exceeds the expectations of customers and the industry, the goal is to provide every piece of global trade content (tariff schedules, export control classification number, free trade agreements, etc.) needed for any organization to be compliant with and connect to any government around the globe. Integration Point strives not only to differentiate itself by the various solutions, but also to provide solutions that solve the difficult problems facing importers and exporters today.

### THE INTEGRATION POINT DIFFERENCE

It is more than just providing software. At Integration Point, it is about ensuring that companies have everything needed to build successful trade compliance programs around the world:

- Provides global trade management solutions to multi-national companies including many of the largest businesses in the world
- Processes one in every three gallons of gasoline imported into the US
- Facilitates trade in over 100 countries
- Manages more than \$400 billion in trade annually
- Integrates with many carriers, forwarders, and brokers to ensure efficient and accurate dataflow
- Spans all industries including Aerospace, Pharmaceutical, Retail, Textile, Electronics, Petroleum, and Automotive
- Allows customers to address numerous compliance issues and programs simultaneously regardless of type or number of internal systems used
- Interfaces with ERP systems to provide compliance at every step in the manufacturing or distribution processes
- Ensures accessibility for all users in a consistent, web-based environment without compromising data security
- Maintains regulatory content from over 140 countries so that customers are consistently using current data when processing and reporting on imports and exports

Built using the Software-as-a-Service (SaaS) model, Integration Point Global Trade Management provides organizations, big or small, with the ability to effectively manage trade compliance needs without requiring large IT investments. Whether an organization starts with one solution or several, the web-based architecture easily allows other trade compliance solutions to be added in a timely and cost-efficient manner. Integration Point Global Trade Management provides a solution to all trade needs in one integrated platform.

### SUPPLY CHAIN COMPLIANCE

- C-TPAT Certification
- Partners-in-Protection Certification
- Authorized Economic Operator (AEO) Certification
- Product Safety
- Import Safety
- Lacey Act
- Social & Environmental Responsibility

- Harmonized Schedules
- Import Charges
- Free Trade Agreements Qualification Rules
- Export Classification Schedules (ECN)
- Denied Party Lists
- Import/Export Requirements

### IMPORT MANAGEMENT

- Global Classification
- 10+2 (Importer Security Filing)
- Free Trade Agreements (NAFTA, Mexico-Japan, EU-Chile etc.)
- Entry Visibility
- Electronic Import Declarations (ABI, CHIEF, etc.)
- ICS Integration

### EXPORT MANAGEMENT

- Denied Trade Screening
- Deemed Exports
- License Management
- Document Determination
- AES Integration
- ECS Integration

### DUTY DEFERRAL PROGRAMS

- US Foreign-Trade Zones
- Mexico Maquiladoras/IMMEX
- EU Customs Warehouses
- EU Processing under Customs Control
- India Special Economic Zones
- China Processing Trade Regimes
- Free Trade Zones

### IMPORT MANAGEMENT

Facilitates the flow of information across a global supply chain by providing organizations with on-demand access to a single repository of current regulatory content (Harmonized Schedules, Value, Duty Rates, Free Trade Agreements, etc.) and connectivity to local Customs authorities or brokers. Integration Point Import Management includes solutions for Importer Security Filing (or 10+2), entry validation, product classification, and Free Trade Agreement management. Also included is customs connectivity such as ABI filing of entries, In-bonds, and ACH payments.

### EXPORT MANAGEMENT

Improves export processing in order to eliminate delays in delivering goods around the globe. Bringing all the compliance and automation tools plus your trading partners from around the world together, Integration Point Export Management provides classification tools, screening, license management, document determination, and tools to facilitate accurate reporting in one easily accessible web-based solution.

### SUPPLY CHAIN COMPLIANCE

Manages relationships with supply chain partners regardless of location and provides an online tool for supplier risk assessments and use of best practices. Integration Point Supply Chain Compliance is a complete suite of solutions to increase visibility and manage compliance for various needs within the supply chain — product safety, import safety, government regulations such as the Lacey Act, social & environmental responsibility programs, and every compliance program currently in use such as C-TPAT, PIP, and AEO.

### DUTY DEFERRAL PROGRAMS

Streamlines operations allowing companies to maximize savings and manage compliance for zone programs around the globe. Integration Point Duty Deferral solutions are built to handle multiple zones from a single system and address the diverse needs of the zone operators in all industries across the globe. Whether you manage US Foreign-Trade Zones, Mexican Maquiladoras/IMMEX, EU Customs Warehouses & Processing Under Customs Control, or Indian Special Economic Zones, the Integration Point Duty Deferral solutions provide one common platform for all trade programs.

### GLOBAL TRADE CONTENT

Provides up-to-date regulatory knowledge for over 140 countries, and includes frequent updates that require no additional work by the user. Integration Point Global Trade Content is a comprehensive collection of global trade regulations used by companies around the world. Content provided includes tariff schedules, denied party lists, munitions lists, free trade agreements, and import/export requirements.
